WE LOOK FORWARD TO WELCOMING YOU!

Dear colleagues,

The world is dynamic like never before. While there are many positive developments regarding novel treatments against headache, unfortunately there is still a lot of inequity in the world regarding access to these treatments, but also regarding the effectiveness across different populations. The European Headache Federation strives to improve health and promote well-being for all individuals with headache. To achieve that goal, it is crucial to connect fundamental scientific knowledge with a clinical perspective, as will be offered in our congress programme.

We therefore look forward to welcoming you to the 18th European Headache Congress held in Rotterdam from 4 to 7 December 2024.

Towards a better headache treatment for everyone.

Prof. Antoinette Maassen van den Brink and Prof. Jan Versijpt
Congress chairs

GENERAL INFORMATION

Venue
Postillion Hotel & Convention Centre WTC Rotterdam
Beursplein 37, Meent 110 | 3011 AA Rotterdam, NL

Congress chairs

WHY YOU SHOULD ABSOLUTELY BE ATTENDING

More than
2200
participants

From more
than **70**
countries

12
e-Poster stations
in silent mode

24
Oral abstract
presentations

6 Plenary
sessions

15
Parallel sessions

340
e-Posters

8
Teaching courses

3
Debate sessions

ROTTERDAM – DYNAMIC WORLD CITY

Rotterdam is a dynamic world city, internationally known as the 'Gateway to Europe'. The port, the busiest in Europe and the smartest in the world, is the anchor of Europe's maritime and offshore cluster. Rotterdam is also home to leading, innovative clusters in other key economic sectors such as life sciences and health, cleantech, logistics and agri-food. Thanks to our port and its excellent hinterland connections, our international airports (only 20 min by train to Schiphol Airport Amsterdam) and our superior (digital) infrastructure, Rotterdam has the best connectivity in Europe.

And not only the city is perfect to host the EHC 2024 but also the venue. From the auditorium to all other session rooms, the industry exhibition and ePosters, the WTC offers the possibility of accommodating all rooms on the same level. Benefit from short distances between the programme highlights.

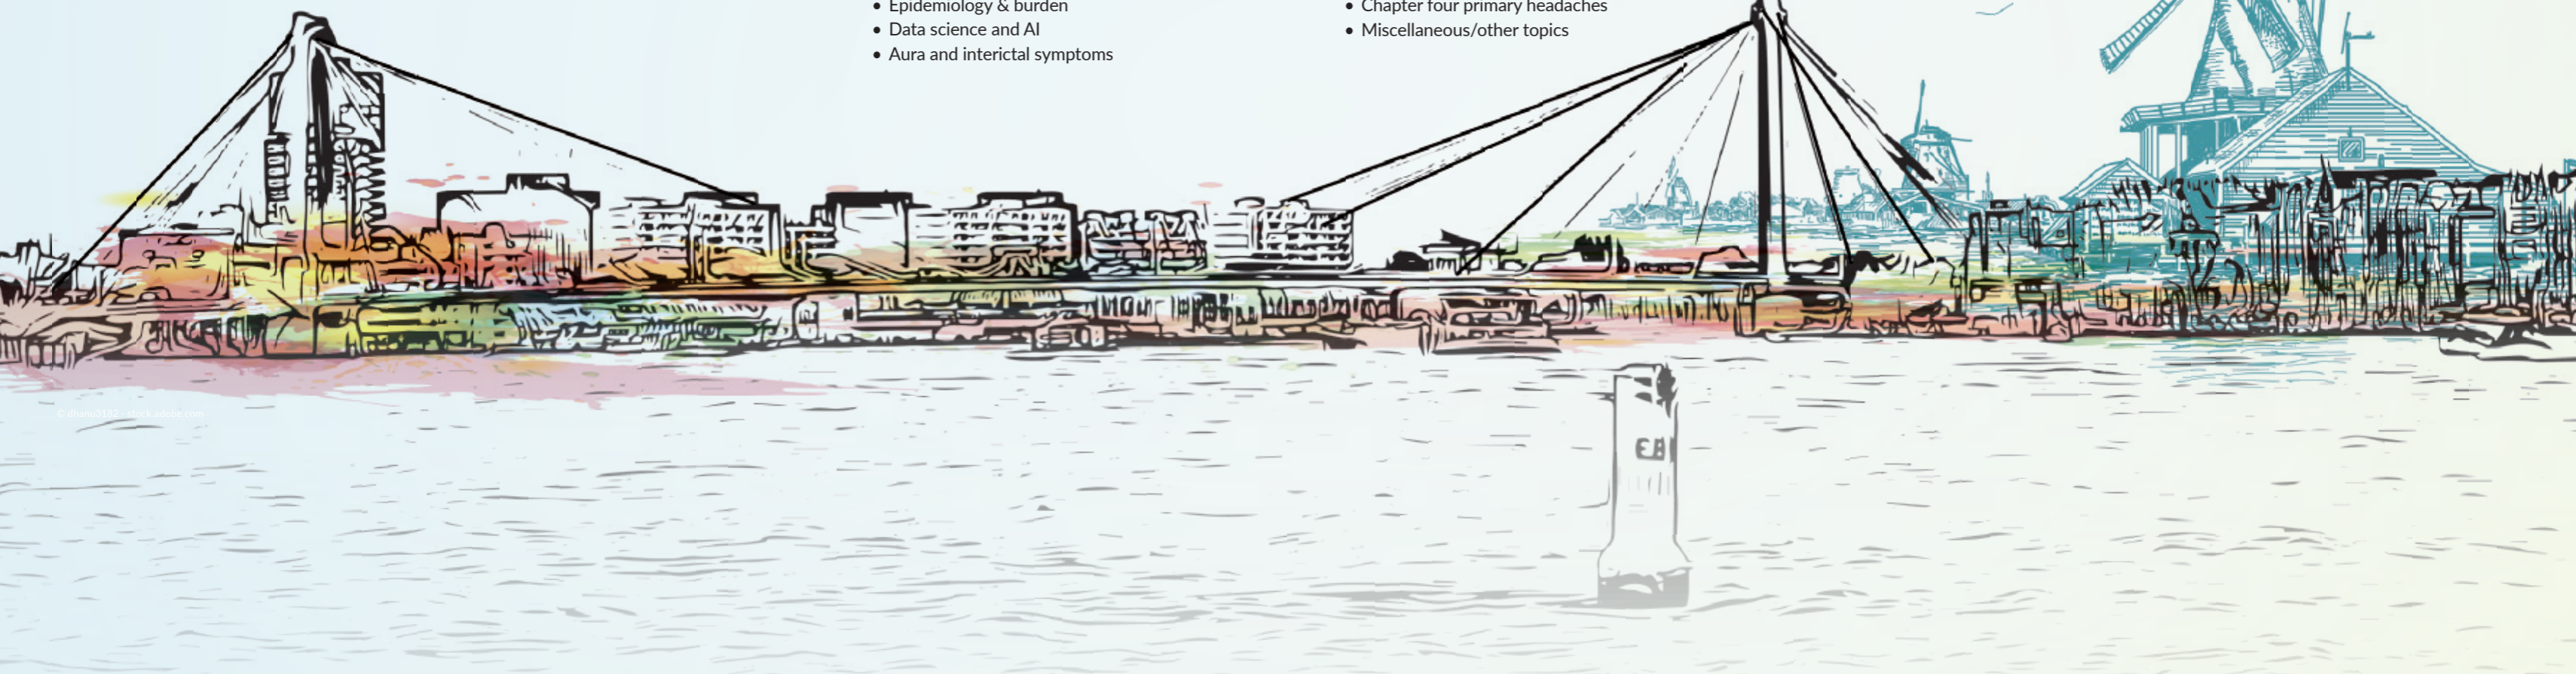

Submit your abstract now and become part of the programme!

ABSTRACT TOPICS

- Animal models
- Human models
- Genetics | Genomics | RNA
- Neuroimaging
- CSF dynamics/lymphatic system
- Metabolism/inflammation
- Preclinical research on novel pharmacological targets
- New clinical developments in prophylactic and acute medications
- CGRP (receptor) inhibitors in the clinic
- Devices, nerve blocks and non-pharmacological care
- Medication overuse
- Epidemiology & burden
- Data science and AI
- Aura and interictal symptoms
- Risk factors and comorbidities
- Sex and gender
- Regional differences in access to care
- Headache in children and adolescents
- Headache in the elderly
- Migraine
- Cluster headache & other TACs
- Oro-facial and temporomandibular disorders
- Posttraumatic headache disorders
- Secondary headaches
- Tension type headache
- Trigeminal neuralgia
- Chapter four primary headaches
- Miscellaneous/other topics

BE PART OF THE CONGRESS

- Use your chance to submit your abstract online!
- Visit headache-congress.org for all relevant information
 - Submission deadline 1 July 2024
 - Submit as oral or e-Poster presentation
 - Get the chance to be part of a scientific session
 - Be part of a growing headache community
 - More than 300 poster presentations
 - Use your opportunity to win several prizes

FUTURE HEADACHE EXPERTS

Future Headache Experts (FHE) is a network of early-career medical researchers with a special interest in headache.

Affiliated to the European Headache Federation, the FHE aims at encouraging young medical doctors, neurologists, scientists and researchers to initiate conversations and share ideas that can educate, motivate, and encourage young doctors/scientists in the areas of headache medicine and science.

Join the future of headache research and become part of the next generation of experts in the field!
